

**4th International Conference  
on Nanotechnology in  
Medicine**

7-9 November 2016

Warsaw University of Life Sciences, Warsaw, Poland

**TECHNICAL  
PROGRAMME**

Dear Colleagues,

On behalf of the organising committee, we are delighted to welcome you to Warsaw and to the FOURTH International Conference on Nanotechnology in Medicine (NANOMED-2016). The previous 3 NANOMED conferences were held in London at University College London (in 2012), Royal Free Hospital in 2014 (UCL campus) and in Manchester, UK in 2015. NANOMED conferences are an off-shoot from the much bigger and established NANOSMAT conference ([www.nanosmat.co.uk](http://www.nanosmat.co.uk)) and organised by “**The NANOSMAT Society**”.

This year NANOMED-2016 incorporates the “**10th International Forum on Innovative Technologies for Medicine**” – **ITMED 2016**.

This year’s event brings together international experts and academics from around the globe. We are honoured to have **Professor Jayakumar Rajadas** from Stanford University, USA as one of our plenary speakers. We are also privileged to have over 10 invited speakers who are world leading in the field of Nanomedicine. The 3-day programme includes a number of parallel sessions, focusing on key areas in the application of nanotechnology in medicine including, Drug Delivery; Diagnostics and Imaging; Tissue Engineering & Biomaterial Science; and Nanoscale biomaterial surface modification. In addition, we will have a poster session on **7<sup>th</sup> November** and there will be a prize for the **best poster**, which will be sponsored by the **British Society of Nanomedicine**.

We would like to thank Warsaw University of Life Sciences for supporting this conference. We would also like to thank each of you for attending this very important conference and sharing your knowledge and expertise with the Nanomedicine & ITMED communities.

We hope you will have an enjoyable and rewarding time at the conference.

Sincerely,

**Professor Ewa Sawosz** (NANOMED, Local Chair)

**Professor Alexander Marcus Seifalian** (NANOMED, Chair)

**Dr May Azzawi** (NANOMED, Chair)

**Professor Stanislaw Mitura** (ITMED Chair)

**Professor Jan Szmidt** (ITMED Chair)

**Dr Nasar Ali** (The NANOSMAT Society)

| Time 7 November 2016 |  |
|----------------------|--|
| 09:00 onwards        | <b>Registration</b>  |
| 09:30 - 10:00        | <p><b>Welcome Address:</b><br/>Room: Crystal Hall</p> <p><b>PROFESSOR WIESLAW BIELAWSKI</b> (RECTOR), Warsaw University of Life Sciences, Poland<br/> <b>Professor Ewa Sawosz Chwalibog</b> (Poland), <b>Professor Stanislaw Mitura</b> (Poland)<br/> <b>Professor Jan Szmidt</b> (Poland), <b>Dr Piotr Dumania</b> (Poland), <b>Dr Nasar Ali</b> (UK)</p> |
| 10:00 - 10:45        | <p><b>Plenary 1: Professor Alexander Seifalian</b>, University College London, UK<br/> <i>"Is nanotechnology-based material and stem cells solution for treatment and replacement of damaged organs?"</i></p>  |
| 10:45 - 11:30        | <p><b>Plenary 2: Professor Jayakumar Rajadas</b>, Stanford University, USA<br/> <i>"Corona driven soft nano particles for targeted drug delivery"</i></p>  |
| 11:30 - 12:00        | <b>Refreshment break</b>   |
| 12:00 - 12:30        | <p><b>INV-17: Professor Andre Chwalibog</b>, University of Copenhagen, Denmark<br/> <i>"Bio-interactions between carbon nanoparticles and organisms"</i></p>   |
| 12:30 - 13:00        | <p><b>INV-2: Dr Jürgen M. Lackner</b>, JOANNEUM RESEARCH Forschungsgesellschaft mbH, Austria<br/> <i>"in vitro and in vivo bio-corrosion behaviour of antimicrobial, osteoconductive Ti-Mg-Ag(Pt) gradient layers for spinal disc implants"</i></p>  |
| 13:00 - 14:00        | <b>Lunch</b>   |
| 14:00 - 14:30        | <p><b>INV-24: Professor Samir Iqbal</b>, University of Texas at Arlington, USA<br/> <i>"Electromechanical sensing for realtime detection, discrimination and quantification of cancer cells"</i></p>   |
| 14:30 - 15:00        | <p><b>MED-100: Dr Jacek Gronwald</b>, Pomeranian Medical University in Szczecin, Poland<br/> <i>"Selected Genetic and Environmental Factors Influencing Cancer Risk"</i></p>   |
| 15:00 - 15:30        | <p><b>INV-21: Professor Elzbieta Pamula</b>, AGH University of Science and Technology, Poland<br/> <i>"Resorbable drug delivery nanocarriers for local treatment of bone tissue diseases"</i></p>  |
| 15:30 - 16:00        | <p><b>INV-18: Professor Piotr Wilczek</b>, Foundation of Cardiac Surgery Development, Poland<br/> <i>"Nanodiamonds in tissue engineering"</i></p>  |
| 16:00 - 16:30        | <p><b>INV-23: Dr Sławomir Jaworski</b>, Warsaw University of Life Sciences, Poland<br/> <i>"Antibacterial properties of graphene-based nanomaterials: Recent achievements and challenges"</i></p>  |
| 16:30 - 17:00        | <p><b>Dr Katarzyna Dziendzikowska</b>, Warsaw University of Life Science, Warsaw, Poland<br/> <i>"Reproductive toxicity of metal nanoparticles"</i></p>  |
| 17:00 - 17:30        | <p><b>MED-101: Helena Gronwald</b>, Pomeranian Medical University in Szczecin, Poland<br/> <i>"An In Vitro Comparison of Influence of Sandblaster and Drill Method on Dentin Surface"</i></p>  |
| 17:00 - 18:00        | <b>POSTER SESSION with Refreshments</b>  |

09:00 -  
09:30

## 8 November 2016

### "Plenary"

(Crystal Hall)

**Dr May Azzawi**, Manchester Metropolitan University, UK

*"Emerging nanotechnologies for the treatment of vascular disease"*
